

Postdoctoral Investigator in Phylogenetic/Phylogenomic Reconstruction at the University of Connecticut.

We seek a postdoctoral scientist with experience in phylogenetic analysis and programming and a strong biological/microbiological/evolution background. Our NSF-Assembling the Tree of Life funded project examines the role of lateral gene transfer in the evolution using the Halobacteriales and Thermotogales as model systems. The position will commence no later than January 1st, 2009. Applicants must have a Ph.D. at the time of employment. The University of Connecticut, rated first among public universities in New England, is located in northeastern Connecticut with easy access to Boston and New York City. The web page of the Department of Molecular and Cell Biology is <http://mcb.uconn.edu>. Electronic applications should include a curriculum vitae and contact information for three references. Applications should be sent to Drs. Kenneth Noll (kenneth.noll@uconn.edu), R. Thane Papke (thane@uconn.edu), or J. Peter Gogarten (gogarten@uconn.edu, <http://gogarten.uconn.edu>).
